

BY DAILOGIX

THE BOARDROOM

*Put your idea in front of the toughest room it'll ever face.
Before the real one.*

Independent panels of AI deliberation agents – advocates, skeptics,
and a persuadable middle – debate your hardest questions under
parliamentary procedure, deliver closing arguments, vote, and seal the
record.

DAILOGIX.COM

Independent AI agents deliberating via role personas and public-profile models.

Your motion. Twenty-one opposed, grounded, persuadable minds. One sealed verdict.

Before you brief the board, launch the campaign, or file the policy – convene The Boardroom. A panel of independent AI agents, each a documented expert persona, debates your questions under parliamentary rules: **every voice heard, rebuttals forced, closing arguments delivered, votes tallied**. You get the argument map, the fracture lines, and the conditions that move the persuadable – in hours, not weeks.

HOW IT WORKS

1

Set the topic

Your motion, your message, your controversy – in plain language.

2

Convene the room

Composed like a jury: **advocates, skeptics, and a persuadable middle** – archetype professionals you specify, or reviewed composites of recognized public figures, each grounded in cited public positions.

3

Hear the deliberation

Round-robin openings. Direct rebuttals. Then, before every ballot, an advocate for each side rises to deliver closing arguments.

4

Read the verdict

Votes tallied, conditions named, record sealed and certified. Buy the depth you need.

FROM THE FLOOR · CLOSING ARGUMENTS

*“Mr. Speaker, if you believe as I believe that ... then you would vote **IN FAVOR OF** the current motion.”*

*“Mr. Speaker, if you believe as I believe that ... then you would vote **OPPOSED**.”*

Proven consistent. Proven predictive.

Consistency Trials & Prediction Test

CERTIFIED

The same 21-member climate panel, the same five questions, **run five separate times** – across two AI systems, three runs fully blind:

- § **Attribution carried all 5 times** – with the identical 4-member dissenting bloc
- § **82% per-agent vote agreement** across 525 recorded votes
- § **7 personas 100% deterministic** – the committed stay committed, as in life
- § **Knife-edge detection** – a threshold-balanced motion *showed the distribution* instead of hiding it
- § The internal dialog is fresh every run. **The structure holds every run.**

THE PREDICTION TEST · REGISTERED IN ADVANCE

Before re-balloting a supply-side amendment, the panel's own named conditions produced a **written prediction** – tested by three blind runs:

- § **Predicted 11-12 Favor** – blind runs: **11, 10, 12** (67% pass vs. 0% prior)
- § **Persona calls:** four of six exact, one partial – the miss moved *as his own brief warned*
- § We don't just tell you the vote. **We tell you which word changes it – then prove it.**

Modeled positions – not population samples. We map how the best-articulated arguments on Earth receive your motion, and what would move them.

WHY IT BEATS THE ALTERNATIVES

FOCUS GROUPS

\$10k+, weeks, groupthink, one loud voice, no replay.

THE BOARDROOM

Hours. Every voice heard in full. Re-convene the identical room tomorrow.

SURVEYS

You learn *that* 38% object.

THE BOARDROOM

You learn *why* – and what would change their minds.

ASKING ONE AI

One agreeable voice.

THE BOARDROOM

Motivated opponents, a moderator, a sealed record.

WHO IT'S FOR

- Policy & advocacy teams stress-testing a position
- Corporate strategists pressure-testing a narrative
- Product & message teams before launch
- Anyone who's said "*hear the case against this first.*"

WHY CONVENE

Hear the strongest case against you — while you can still answer it.

- ♦ **Every voice, in full**
No groupthink. No single loud voice. Twenty-one positions argued to their strongest form.
- ♦ **The argument map**
Fracture lines, coalitions, and the conditions that move the persuadable middle – registered as predictions, then proven on re-ballot.
- ♦ **Closing arguments, both sides**
The best case for and against your motion – delivered on the record before every ballot.
- ♦ **Replayable, on demand**
Re-convene the identical room tomorrow. Swap personas. A/B test the message.
- ♦ **Hours, not weeks**
A full deliberation and sealed verdict at a fraction of focus-group cost and time.
- ♦ **A sealed record**
Roll calls, transcripts, and vote distributions – certified and ready to brief from.
